LEARNING OBJECTIVE / SCOPE: Students create a capstone project and related documentation that displays their academic accomplishment and ability to apply the knowledge and skills learned over the completion of the ladderized nanodegree program. This project is then presented to a live online audience. It is necessary to finish and turn in the culminating assignment in order to get the diploma for successfully completing this program. The completion of a capstone project is a requirement for graduating from this nanodegree. This final project gives students the opportunity to undertake research in order to come up with innovative solutions to real-world problems that have been identified in advance.

In partial fulfillment of the requirements for the nanodegree of
